Lightning-fast VPN connection

An upgrade from its predecessor, Flint 2's VPN speeds are better and faster. Flint 2 delivers up to 900 Mbps with WireGuard and 190 Mbps with OpenVPN. Effortlessly configure your VPN client via the admin panel, providing instant protection for all connected devices, or establish a VPN server.

Whether you're working remotely, wrapping yourself in entertainment, or want an extra layer of privacy and security, your VPN speeds won't mean trouble for you.

WireGuard® is a registered trademark of Jason A.Donenfeld.

* Tests conducted on a local network. Real world speeds may differ depending on your network configuration.

* OpenVPN and WireGuard speeds will be slower when running the device as a server. Results above are in client mode.

Dominate with Uninterrupted Performance

Equipped with 8-Stream Wi-Fi 6 technology, the Flint 2 delivers blazing speeds, ensuring a stable and high-speed connection even during intense multiplayer battles.

Keep the Family Protected

Are too much screen time and exposure to inappropriate content your top concerns as a parent? In collaboration with Bark (an award-winning child-monitoring tool), Flint 2 offers parental controls* built in to the router. In a few clicks, you can filter out certain websites and content categories, enable safe search on your child's search engine, and manage their usage effortlessly.

*An active Bark subscription is required. Alternatively, use Flint 2's existing parental controls without an additional cost.

DFS Certification in US, CA, EU and UK

Flint 2 is approved to use DFS (Dynamic Frequency Selection), letting the router's 5GHz network use additional frequencies normally reserved by military, satellite, and weather radar applications. The selection of additional channels can lower network congestion under high density network environments.
