Evoluent VerticalMouse 4 Right
Part no: VM4R

Avoids forearm twisting for comfort and good health*

The patented shape supports your hand in an upright neutral posture that generally avoids forearm twisting. Many users, including medical doctors, ergonomists and physical therapists, said the Evoluent VerticalMouse provides superior comfort and even relieved their wrist pain.*

Evoluent VerticalMouse — arm neutral

Ordinary mouse — arm twisted

Comfortable and easy to use

The shape is thoughtfully sculpted for uncompromised comfort and easy-to-reach programmable buttons. No finger contortions are needed to operate the buttons.

Adjustable laser sensor

Pointer speed controls on the side allow convenient adjustment without even releasing your grip from the mouse.

Improved thumb rest

The thumb rest has been reshaped to provide even more comfort over earlier versions.

Now two thumb buttons

A new bottom thumb button provides greatly extended functionality when used with the included driver.

Extended lip prevents rubbing

An extra wide lip along the bottom edge prevents the last finger from rubbing the desk.

Pointer speed indicators

Top mounted LEDs show through the chrome thumb rest to indicate selected pointer speed including extra low (XL), low (LO), MD (medium), to high (HI).

Lighted Evoluent logo

The logo is pure eye candy. The illumination turns off when the system is in sleep mode to conserve notebook battery power.

Powerful and intuitive driver

Evoluent Mouse Manager for Windows provides extensive but easy to use functionality for 6 buttons through a simple and intuitive interface.

Approved mouse of
University of California at Berkeley

The Evoluent VerticalMouse 2 (an earlier model identical in concept) was evaluated in 2007 by a team at the health services clinic in UC Berkeley, including medical doctors, physical therapists, ergonomists, and administrators. It was found to be comfortable, easily adapted to, and promote a neutral wrist and forearm posture. It was the only vertical type

Compatibility

Windows
▪ Includes driver for Windows XP, Vista and Win 7 in 32/64 bit for programming all 6 buttons. The driver is not required. The VerticalMouse 4 still has basic functionality without it.
▪ Freeware driver for other Windows versions at www.highrez.co.uk/downloads/XMouseButtonControl.htm

mouse approved for staff use within UC Berkeley and for sale in the campus store at that time.

(Evoluent has no business relationship with this vendor.)
▪ USB only; not compatible with PS2 adapters. May be compatible with some USB KVM switches but it is not guaranteed.

Mac

▪ Basic functionality in OS X or newer without a driver: A Mac driver is coming in mid 2011.
▪ Shareware drivers are available at
www.boastr.de/
www.plentycom.jp/en/steermouse and www.usboverdrive.com for programming the buttons.
(Evoluent has no business relationship with these vendors.)

Linux

▪ Basic functionality without a driver.

Unix

▪ Compatibility unknown.
